3. Explanatory Notes On Special Businesses

(a) Ordinary Resolution 1

- Authority To Directors To Issue Shares

In line with the Company's plan for expansion/diversification, the Company is actively looking into prospective areas so as to broaden the operating base and earning potential of the Company. As the expansion/diversification may involve the issue of new shares, the Directors, under present circumstances, would have to call for a general meeting to approve the issue of new shares even though the number involved is less than 10% of the issued capital. In order to avoid any delay and cost involved in convening a general meeting to approve such issue of shares, it is thus considered appropriate that the Directors be now empowered to issue shares in the Company up to an amount not exceeding in total 10% of the issued share capital of the Company for the time being for such purposes as they consider would be in the interest of the Company. This authority, unless revoked or varied at a general meeting, will expire at the conclusion of the next Annual General Meeting of the Company.

(b) Ordinary Resolution 2

- Authority To Directors On Purchase Of The Company's Own Shares

The Directors be empowered to exercise the power of the Company to purchase its own Shares ("Proposed Share Buy Back") by utilising its financial resources, not immediately required. The Proposed Share Buy Back may have a positive impact on the market price of the Company's Shares. This authority, unless revoked or varied at a general meeting, will expire at the conclusion of the next Annual General Meeting of the Company.

Further information on the Proposed Share Buy Back are set out in the Circular to Shareholders of the Company which is despatched together with the Company's 2001 Annual Report.

Chairman's Statement

On behalf of the Board of Directors, I present the Annual Report and Financial Statements of Hong Leong Properties Berhad Group for the financial year ended 30 June 2001.

OVERVIEW

The property market remained soft during the period under review, stemming in part from increasing concern over the strength of the economy and the effects of a global slowdown. Comparatively, the residential sector showed the most promise where there was sustained demand for landed properties in established locations that were competitively priced. The office-building sector remained sluggish due to the current oversupply situation of office space; only prime office buildings experienced marginal increases in occupancy rates while rental rates remained competitive.

FINANCIAL HIGHLIGHTS

Our turnover increased from RM255.8 million in the previous financial year to RM330.7 million in the financial year under review, an increase of 29.3%. The increase in turnover was mainly attributed to the sale of 50% of our interest in Bedford Damansara Heights Development Sdn. Bhd.

An improvement was also recorded in our profit before tax and minority interest which stood at RM11.4 million for the year ended 30 June 2001, compared to the loss before tax and minority interest of RM86.3 million achieved in the previous corresponding period as a result of a write down of our hotel assets to market value.

Our Property Investment Division recorded improved turnover and profitability levels despite the oversupply situation due to our emphasis on superior maintenance & quality tenant profiles for our office buildings. Meanwhile, our Residential and Construction Divisions experienced decreased billing volumes at lower margins due to the overall cautious market sentiment. Our Hotel & Resort Division maintained their previous year's operational performance amidst the strong competition in each of the hotel's respective locality.

Our net tangible assets increased to RM686.8 million as at 30 June 2001, from RM677.4 million in the previous year.

STRATEGIES AHEAD

Our planned asset transformation strategies can be summarised as follows: to restructure our asset portfolio by focusing our resources on assets which will generate optimal and sustainable long term shareholders' return whilst disposing non-core assets with minimal yield. In the past year, we have been actively marketing the low yielding land bank as well as our investment properties, and we expect further disposals in the coming year so as to realign our asset portfolio as well as generate cash flow for new investment opportunities.

In addition to the above asset transformation strategies, we have also tapped on the strengths of information technology to transform our business processes as well as the products offered to our customers. In essence, we are using information technology to elevate our business to an e-enabled organisation with our interactive website, MyStorey.com, which is a fully equipped, intelligent, virtual marketing office that empowers our customers with direct access to all our products.

While MyStorey.com will e-enable our business processes, our 'Online Lifestyle' concept will equip our future developments, where practicable, with high-speed, secure, always-connected Internet access which will enable new world services such as on-line games and entertainment, interactive education, shopping, messaging and home automation to be available twenty four hours a day. Meanwhile, our office buildings will embody the Online Lifestyle concept by being equipped with the latest in high-speed communications infrastructure that will enable our tenants to fully enjoy fast, secure and reliable access to the Internet in order for them to stay competitive in today's market.

In our **Property Development Division**, we continue to be market driven with our activities focused on affordable housing. This is very much evident in our latest integrated 'high-tech' township development in Rawang, aptly called the Emerald. The Emerald is a beautiful 1,000 acre self-contained township that will be the first of our townships to embody the Online Lifestyle concept. Once completed, secure gated communities will be multi-media system ready, featuring renovation free dwellings for its residents. Our first launch of affordable bungalow units at end-March, priced from RM238,888 onwards, has been fully taken up and

subsequent launches of bungalow units have also been well received. Considering the current soft property market conditions, we are pleased with the response and are confident that the sales can be sustained.

As for our Pantai Sepang Putra integrated township project, the first of the bungalows units were handed over to our purchasers in October last year. Subsequent handovers have witnessed the 1,500 acre Lake District, being the first phase of Pantai Sepang Putra, come to life. We are also enjoying continuing sales of our Orchard and Homestead lots, which had been designed to provide the ideal weekend retreat for the entire family. In the mean time, we are proceeding with plans to develop the 400 acre University Precinct in tandem with the development of the New Era College that is adjacent to it. Concurrently, feasibility studies are also being carried out for the development of a Silver Hair community in the northwest region of the Lake District. We are confident that with the progress made to date, Pantai Sepang Putra will offer our residents a lifestyle that combines ideal living, working and recreational environments.

Our Precinct 8 township located within the Putrajaya Federal Administrative Centre is now a thriving township with its residents enjoying the many benefits of a world-class development. Precinct 8 offers everything required for today's lifestyle - elegant yet functionally designed homes with high-tech features, natural garden-like environment, a unique lakeside promenade, smart schools and superior infrastructure. In short, Precinct 8 is the neighbourhood for families to live, grow and learn in.

3 KiaPeng, our prestigious residential development strategically located in the heart of the Golden Triangle, is a low-density development of only 139 exclusive units which offers its residents a host of choice facilities whether for business or pleasure. Clad in Brazilian red capoa bonito granite, 3 KiaPeng is an investment of immense potential as well as a home of undeniable luxury. Investors have responded well to our prestigious development and despite the current soft property market conditions, we are pleased with our sales progress to date.

Our **Property Investment Division** performed well as compared to market, with our office buildings achieving occupancies ranging from 73 to 91 percent and rental rates ranging from RM2.40 to RM8.00 per square foot. In large part, this was aided by our emphasis on stringent maintenance practices as well as ensuring a high quality tenant profile for all our buildings.

3 KiaPeng, prestigious residential development

Apart from our emphasis on asset maintenance and tenant profile, our emphasis on impressive yet functional designs for our office buildings has, yet again, won for us the FIABCI Award of Distinction for Office Development. First awarded to Wisma Hong Leong in 1996, FIABCI has now presented the 2001 award to the awe inspiring Menara Milenium located atop Damansara Heights. This highly regarded international award is one of the many reasons why our office buildings are sought after business addresses in this competitive market. With our existing portfolio of prime office buildings as well as in line with our asset transformation strategies, we will be actively seeking opportunities in the coming year to trade our assets in order to realise capital gains as well as to generate cash flow for new investment opportunities.

The **Construction Division** is competing in an increasingly difficult market where a smaller number of contracts are being awarded at lower margins. Our area of specialization has always been in the residential and commercial building sectors while the current market focus is on infrastructure works. Against this scenario, we have experienced a reduction in our contract volume over the past year as well as a reduced contribution in terms of profit from this division as compared to previous years. Consequently, we are currently focusing our efforts on our property development and investment divisions.

Our **Hotel and Resort Division** comprises two city hotels and one resort hotel, located in Johor Bahru, Hanoi and Port Dickson, respectively. Our two city hotels continue to operate in highly competitive markets which are experiencing low occupancies and average room rates. Notwithstanding the saturation of hotel rooms in their respective locations, our city hotels performed at par with market. Meanwhile, our resort hotel achieved a reasonable occupancy this past year and continues to command its fair market share in Port Dickson. As in previous years, we will continue to place great emphasis on streamlining operations and multi-tasking while maintaining efficient service levels and competitive key industry indicators in terms of productivity, efficiency, occupancy and room rates.

PROSPECTS

The prospects for the broad property market in the coming year is likely to remain cautious amidst an uncertain economic outlook. Landed properties will continue to command the greatest interest, particularly for projects in preferred locations and developed by established developers, aided by competitive housing loan packages in the market and low interest rates. Meanwhile, office building in choice locations and good management will continue to receive good support while buildings in secondary areas will possibly face reduced occupancies and rental rates.

Wisma Semantan

With our focused strategies in place, we anticipate improving on our performance in the coming year. We will also continue to be on the lookout for strategic residential and commercial development opportunities at good value to enhance our market position.

OTHER STATUTORY INFORMATION

- (a) Before the balance sheets and income statements of the Group and of the Company were made out, the Directors took reasonable steps:
- (i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of provision for doubtful debts and satisfied themselves that all known bad debts had been written off and that adequate provision had been made for doubtful debts; and

- (b) At the date of this report, the Directors are not aware of any circumstances which would render:
- (i) the amount written off for bad debts or the amount of the provision for doubtful debts in the Group and the Company inadequate to any substantial extent; and
 - (ii) the values attributed to current assets in the financial statements of the Group and of the Company misleading.
- (c) At the date of this report, the Directors are not aware of any circumstances which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.

OTHER STATUTORY INFORMATION (continued)

- (e) At the date of this report, there does not exist:
- (i) any charge on the assets of the Group and of the Company which has arisen since the end of the financial year which secures the liabilities of any other person; or

- (f) In the opinion of the Directors:
- (i) no contingent liability or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which will or may affect the ability of the Group and of the Company to meet their obligations as and when they fall due; and
 - (ii) no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of the operations of the Group and of the Company for the financial year in which this report is made.

The number of employees at 30 June 2001 for the Group is 634 (2000: 637) and for the Company is 6 (2000: 6).

3. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Consolidation

A subsidiary company is a company in which the Company controls the composition of its Board of Directors and more than half of its voting powers or holds more than half of its issued ordinary share capital.

The Group financial statements incorporate the financial statements of the Company and its subsidiary companies. Subsidiary companies are consolidated on the acquisition method of accounting except for certain subsidiary companies, as disclosed in Note 34 to the financial statements, which are consolidated on the merger method of accounting.

- (i) Under the acquisition method of accounting, the results of subsidiary companies acquired or disposed of during the year are included from the date of acquisition or up to the date of disposal. At the date of acquisition, the fair values of the subsidiary companies' net assets are determined and these values are reflected in the Group financial statements.

The difference between the acquisition costs and these fair values is reflected as goodwill or reserve on consolidation as appropriate. Goodwill on consolidation is written off against reserves.

- (ii) Under the merger method of accounting, the results of the subsidiary companies are presented as if the companies had been combined throughout the current and previous financial years.

The difference between the cost of acquisition over the nominal value of the share capital and share premium of the subsidiary companies is written off against reserves.

All inter-company transactions and balances and the resulting unrealised profits are eliminated on consolidation. Unrealised losses resulting from inter-company transactions are also eliminated.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

(b) Associated Companies

An associated company is an investee company that is not a subsidiary company and in which the Group has a long term equity interest and exercises significant influence over the financial and commercial policies of the investee through Board representation.

The Group's share of results and reserves of the associated companies acquired or disposed of are included in the consolidated financial statements from the date of acquisition or up to the date of disposal under the equity method.

Unrealised profits arising on transactions between the Group and its associates are eliminated partially to the extent of the Group's interests in the associates. Unrealised losses on such transactions are also eliminated.

(c) Joint Ventures

Joint ventures represent contractual arrangements with third parties to undertake construction and development projects.

The Group's share of the results of joint ventures are included in the consolidated financial statements from the date of formation of the joint ventures and up to the date of completion of the projects under the equity method.

Unrealised profits or losses arising from transactions between the Group and its joint ventures are recognised only to the extent of that portion of the gain or loss which is attributable to the interests of the other ventures. Unrealised losses are recognised in full when the transaction provides evidence of a reduction in the net realisable value of current assets or an impairment loss.

(d) Foreign Currencies

(i) Transactions in foreign currencies

Transactions in foreign currencies are recorded in Ringgit Malaysia at the exchange rates ruling at the time of the transaction. Foreign currency assets and liabilities are reported in Ringgit Malaysia at the exchange rates ruling at the balance sheet date. All exchange gains and losses are included in the income statement.

(ii) Translation of foreign currency financial statements

The revenues and expenses of foreign operations are translated into Ringgit Malaysia at average exchange rates applicable throughout the year.

The freehold and long leasehold land and buildings of the Group are pledged to financial institutions for credit facilities granted to certain subsidiary companies.

The Directors, in the financial year ended 30 June 2000, reassessed the hotel assets of the Group to determine if the carrying amounts were impaired on account of the unfavourable market conditions for the hotel industry. The Directors were of the opinion that the yields that the Group's hotel assets generated were significantly below the desired rate of return for the capital investments in these hotel assets. Arising from this assessment, the Group has recognised an impairment loss of RM53,374,000 in its hotel assets which represents the difference between the carrying amounts and recoverable amounts of these hotel assets of RM81,048,000. In arriving at the recoverable amounts, the discount rates used by the Group were between 8.5% and 9%, which approximated the costs of borrowing of the hotel operations at that time. No impairment losses had been made for the current financial year ended 30 June 2001 as the Directors are of the opinion that the carrying amounts of these hotel assets approximate the recoverable amounts.
